To Whom It May Concern

Materials Declaration

D. G. Controls Ltd are a “Downstream User” of chemical substances and within the REACH Directive (Registration, Evaluation, Authorisation & Restriction of Chemicals (REACH) Regulation (EC) 1907/2006) are not required to register our products.

Our suppliers have been contacted to ensure that they, or their principles, have registered all substances we purchase from them for use in our beacons. At the same time we have informed them of the applications for their substances to enable them to list these as an “Identified Use” so that an “Exposure Scenario” can be determined.

The list of Substances of Very High Concern (SVHC) has been updated. To date our suppliers have advised that none of the substances contained in this candidate list are contained in our products.

Further updates will be taken into consideration as REACH progresses.

In addition D. G. Controls Ltd has fully complied with the RoHS EU Directive (2011/65/EU) and the Waste Electrical and Electronic Equipment (WEEE) Directive 2002/96/EC since their implementation.
